The remarkable success of the paper The remarkable success of the paper in the past, as manifested by its large and steadily growing subscription list, its increasing advertising patron-age and the expressions of goodwill towards the journal which greet us from all quarters, convinces the pub-lishers that they are doing what they set out to do-passely turnish a isters that they are doing what they set out to do—namely, furnish a newspaper that the people would like, and therefore support. The Henam, as in the past, will be the people's paper. Independent in a political sense, it will always be found on the side of the people, outspoken on one-store affections of the people, outspoken on the side of the people, outspoken on questions affecting he rights of the masses; battling for local self-government and the largest liberty to individuals consistent with public good; laboring for a pure, honest and economic administration of government; treating public matters dispassionately and employing language calculated to enlighten the reason of men, rather than influence their passions, and working for peace and the development of the resources of the territory instead of trying to create while and retard progress. With our inand retard progrees. HERALD a better paper than ever.

This valuable and popular edition of the HERALD will continue to make its appearance twice a week during the year, and the same degree of progress and improvement that marks the Daily will be seen in its columns. No better newspaper was be found. No better newspaper can be found in the west for those people who are not ble seed with daily mail facilities, than the SEMI-WEEKLY HERALD. It contains all the news, domestic and torage in a condensed and readable form. The design has been to make it combine the distinguishing characteristics of a commercial and home journal, and we believe that I is has been successfully carried out. The SEMI-WEEKLY has certainly met with unexpectedly high favor at the hands of the people.

A PIOUS FORGER

Bring Discovered, He Repouts and Files.

Richmond, Va. 14.—The community was startled this more ing by the public announcement that Dr. Lather R. Diskenson, editor a depropriate of the Planter and Furner in graine, and a prominent citizen of Rushmond, has been engaged for two years past in a systematic course of forgeries. He used forged endorsements of deer & Dickenson, prouvistors of the Religious Hern d, to negatiate notes of his own which he effected at discount at various banking institutions of this city, or a lid to not-brokers. He has a lo forged the endorsements of Rev. Dr. Go. B. Taylor, Bartlet missionary to R. mo, Italy as d Rev. College, N. C., both of whem we his brothers-in-law. The fact that he was the brother of the Rev. Dr. A. E. Diskerson, junior member of the firm of Jeter & Dickenson, and was atherwise so highly connected, dispelled all suspicion as to the grouineness of the forged signatures, and he might have continued his criminal operations for a long time to come, but for the recond death of Rev. Dr. J. B. Jeter, senior member of the firm name in negotiating loans. The settlement of the more after the discovery of the forger. The Asiatic continent could spul 100,000,000 of its people into America and she would exercely know that she had lest a family. What is to prevent this? An act of Congress? Why, it would be sweet away like a freshet sweeping and be caking the banks of the Missterippi River. It is the duly Asiatics.

New York, 15.—Dr. Storrs, who occupied Plymouth Church pulpit, yesterday, said, in his sermout On the other side of this continent there stand open these golden gates to the Pacific Sea. The Asiatic continent could spill 100,000,000 of its people into America and she would scarcely know that she had lost a family. What is to prevent this? An act of Congress? Why, it would be sweet away like a freshed sweeping and breaking the banks of the Missteriph River. It is the duty of Christians to inquire as to the probable result of the absorption by American people of this immigration from Europe and Asia. It is a fact that there immigrants had, for the most part and lack of religious and mend training, and upon which, on the part of the people, perfect unity of states and astions depend. These immigrants brought with them a wild, ungovernable temp r, an ignorance of right which carried with it a wreck of nations. We can overcome their poverty, because their own industry wild soon bring them comparative westift; we can overcome their ignorance because our schools and our institutions will soon remedy that.

Strikes and Their Results. New York, 14.—The National Ascombly Boom, West Fourth street, was

trades unions, and the strikers say they
will be able to hold out a year if meessary. Re-cutations were adopted declaring
the action of all manufacturers in closing
their fac ories, as most unjustifiable. It
was also resolved to hold out until their

It may not be easy to tap the great internal water reservoir on the plains east of the Bocky Mountains, but probably the deeper the bore the fuller the perpetual stream, as exemplified in the arte ian well at Gronville, near Paris, which was not stured ustil nearly 1,800 feet of soil had been perforated, and four years had been spent in boring. It has a thousa dfold repadits cost, discharging considerably more than half a million gallons overy twenty-four hours.
